Welcome to the movie

starring the "Easter Bunny's" son, E. B.!

Bunnies as pets aren't for everybunny!

While kids and parents alike may adore the movie's main bunny character, please don't make a hasty decision to purchase a rabbit, or other animal!

We are asking you to make sure you fully understand any animal's needs before adding one to your family and make sure you can provide him/her with adequate care.

Baby chicks or ducklings are far too fragile to be children's pets. Rabbits can be destructive and generally do not like being handled so they often hide, scratch or even bite to escape, resulting in harm to both child and animal: http://www.rabbit.org/easter/

Anytime you decide to add a new pet to your home, please DON'T SHOP; ADOPT from your local shelter or www.petfinder.com to help an animal in need!

Better yet, as a gift, please consider an adorable stuffed plush bunny or sponsor a bunny in need: www.bestfriends.org/donate/list.cfm?action=search&species=Rabbit

WE HOPE YOU ENJOY THE SHOW

and please pass along this important information!
